**Welcome to the world of hypnotic  
Healing and health.....**

***Intensive Course in Clinical Hypnosis  
With Meditation, NLP, CBT and Quantum healing***

**This is mind body  
medicine at its  
best – with Hypnosis  
as the operating system:  
If you are serious  
about learning it, and  
start practicing it straight  
away, this is the course for you.  
As our teaching involves a lot of  
post hypnotic learning loops,  
experiential and hands-on  
training, and our unique  
mini psychotherapy and  
counseling components, you  
will acquire the necessary  
clinical skills while you are  
in the seminar effortlessly -  
you do not have to do any  
homework: We know how  
busy you are in  
your practice.**

**`What you can do or dream you can, do it;  
boldness has genius, power, and magic in it'**

**- Goethe**

**Most people live in a very restricted circle of their potential being.  
They make use of a very small portion of  
their possible consciousness, and  
of their soul's resources, in general, much like a man who, out of  
his whole bodily organism should get into a habit of using and  
moving only his little finger**

**--William James**

## From a patient's perspective.....

Dear doctors,

I would like to share with you my experiences of hypnotherapy with Dr Muthukrishnan. I am a woman in my 30's who was referred for migraines and irritable bowel syndrome. In the initial consultation I wasn't just asked about my migraines or irritable bowel. Dr Muthurkrishnan asked me about all areas of my life and concerns for my health. I was very shocked as no other doctor had really taken such a **"whole" approach.**

Then we began the hypnotherapy session. After the first session **I walked away feeling like a new person. My life started to change dramatically.**

Four weeks later I can't believe the difference:

- My regular tension headaches disappeared (without medication), just from carrying out "mini hypnosis" taught to me
- I can now manage my migraine (by using the cd)
- I now enjoy a wonderful and regular painless love life (as I suffered from vaginismus)
- I have lost 5 kilos and do not crave sweets or biscuits (I was someone who couldn't pass up a sweet if her life depended on it)
- I sleep like a baby (a month ago I suffered dreadful insomnia and was an absolute misery)
- My irritable bowel is a thing of the past!
- For the first time I feel at peace and in control of my life.

I have spent the last 20 years of my life looking to improve my health and have spent many hours visiting doctors, specialists, dieticians, gynaecologists etc. **Don't make your patients wait 20years like I had to! I implore you to share this wonderful treatment with your patients now!**

I thank Dr Muthukrishnan, again, not just from myself but my husband and family. He **has changed my life. Thanks again for my wonderful new life**

Kindest Regards

Mrs.X

# WHAT WILL YOU GAIN IF YOU INVEST YOUR TIME AND MONEY IN THESE FOUR DAYS?

1. You will learn a new and powerful modality of therapy - **mind body medicine**. You can then add a new dimension to your existing general practice work or start a new direction, i.e., in holistic healing – **the possibilities are infinite**
2. You also learn **Focused Psychological Strategies** to effectively deal with **Mental health issues**
3. You experience a profound personal transformation - because it is an experiential course - towards **a better you**, in all areas of your life: Physical, intellectual, emotional, social, marital, professional and financial.
4. The tools of mind power - **hypnosis, meditation, NLP and quantum healing** will become yours for life. They are essentially the **software's for your success** in the next millennium, century, decade, years, months and days.  
  
In future, you cannot do without these, as you cannot do without computers these days.
5. With these tools at your fingertips you can enrich many lives - patients, friends, relatives, children, spouse and yourself.
6. **You experience a powerful, personal healing. You will get all your physical and mental conditions healed – all psychosomatic problems - anxiety, depression, phobias, fears, panic attacks, addictions (smoking, alcoholism etc.) - years of silent suffering, from any of these will suddenly disappear.**
7. You leave the seminar with a sense of **empowerment**, with new directions, confidence, and fulfillment and incredible, never thought of clinical skills at your fingertips.
8. You will continue to practice mind power techniques throughout your life - for yourself and for others in your care.
9. **You will wonder why this course was not offered to you some 30, 20, 10, etc. years ago. You will realise this even after the first half an hour of the seminar.**

# WHAT IS HYPNOSIS?

Hypnosis is an altered state of consciousness, in which favourable suggestions are readily accepted, internalized and acted upon, and the unlimited power of the subconscious mind is utilized for **healing, creativity, personal transformation and performance enhancement**. It is essentially, with our understanding of the **Quantum Field**, a reorientation of one's awareness, this reorientation process, opening up a field of **infinite possibilities**. Nothing can make medicine more holistic, than this metaphysical tool.

It has been replete with myths and misunderstandings since **Mesmer** quite unjustifiably. It is perhaps the safest, most noninvasive healing modality and deserves better acceptance from the medical fraternity.

Modern hypnosis has evolved itself into a sophisticated, clinical specialty and needs to be treated as such: **It is not the spiral wheel, the swinging pendulum or the authoritative command of the stage hypnotist any more.**

Hypnosis is not new to medical profession. Around 1845, an English Surgeon Dr. James Esdaile performed over 300 deep abdominal operations with remarkable success using Hypnosis as the only means of anesthesia, in India. We have of course better means of chemical anesthesia now: **But hypnosis still remains an excellent form of therapy in common cases like chronic migraine, stress, phobic states, IBS, chronic fatigue syndrome, etc., and also in uncommon conditions like reflex sympathetic dystrophy, phantom pain, etc. The relief is often unbelievably dramatic.**

There are also many areas of performance enhancement you can really help your ambitious but helpless 'patients', i.e. your soccer or sports enthusiasts, ballet dancer or opera singer, company executive or H.S.C. students: Hypnosis can give them the edge they are struggling for.

Effortless performance and excellence in any pursuit, perfect health and harmony are perhaps the most sophisticated help medicine can offer in modern society - through hypnosis.

It is becoming increasingly evident, that the next decade or so will bring some staggering discoveries in the field of thinking, consciousness and their interaction with matter, physical and emotional states, health and disease.....

Hypnosis may well be the key to these new frontiers of human potential.

**"Hypnosis is the means of bringing the art of healing to absolute perfection"**

**- Franz Anton Mesmer**

# **HIGHLIGHTS OF THE COURSE**

The Intensive Course in Clinical Hypnosis for General Practitioners offers:

- ❖ **CPD points: 240 Category 1 points (40x6modules) (Approved by RACGP)**
- ❖ A 'State of the art' working knowledge of mind-body medicine.
- ❖ A unique technique to combine Hypnosis, Meditation NLP ,CBT and Quantum healing in your therapeutic approach.
- ❖ Skills in counseling / psychotherapy.
- ❖ Highly sophisticated state of the art clinical skills in Hypnosis so that one can never have to say to the patient, 'I cannot help you', whatever the patient's condition may be-you can always offer an alternative
- ❖ Various practice tips and techniques to make hypnosis work in the consulting room, as it works in the stage show.
- ❖ Life skills and metaphysical methods for life improvement.
- ❖ A personal stress management and self improvement programme for all the participants, by which the participants will be able to transform their personal lives into their desired level of excellence in any area: This experiential knowledge and insight into self hypnosis, meditation and NLP, CBT during the course, also makes the art of mastering the skills of hypnosis, effortlessly easier.
- ❖ An ongoing support system even after the course is finished: The candidates have personal access to Dr. Muthukrishnan for consultations and guidance over the phone /fax /e-mail anytime when they need it.
- ❖ An essential overview of all the mind power traditions - from the 'medicine man' to the modern alternative 'mind body' medical practitioner, to Quantum physics and methods to incorporate them in your practice - scientifically.
- ❖ Finally, plans as to how to start and succeed in a hypnotherapy referral practice
- ❖ The course is actually three in one:
  - ❖ **Hypnotherapy**
  - ❖ **Personal stress and self management course**
  - ❖ **Mind-body/Quantum medicine (with NLP and meditation) unless you possess knowledge in the latter two, the skill in simple hypnotherapy has no practical value in a busy medical practice: The combination of course works like magic: and that makes the course more than worth the time and money invested.**

# WHAT DO THE PARTICIPANTS SAY ABOUT THE COURSE?

- \* It has been one of the most profitable and fulfilling experiences of my post-graduate life.

*Dr. Anthony Grantham, 12 Hillview Road, EASTWOOD NSW 2122  
PH (02) 98741189*

- \* I have attended numerous courses in hypnotherapy and read every book I could lay my hands on, in the last seven years. In spite of this, my knowledge of hypnosis has never been complete, until I attended Dr. Muthukrishnan's course.

It has been the most fascinating and exciting course I have ever attended on hypnosis.

Dr. Muthukrishnan is an excellent teacher and a gentleman.

He has distilled the techniques of hypnotherapy very well and his techniques are fail proof and very sophisticated - he has imparted his knowledge with great skill.

I am convinced that I have now found the perfect recipe for being a successful and confident hypnotherapist.

Thanks very much for sharing your knowledge and skills with me.

*Dr. Alex J.A. Fernandez, 54 Lakeside Avenue, NSW 2530  
(02) 42615433*

- \*An exhilarating experience which used mind power to give my mind more power. Should be compulsory in medical education.

*Dr. Stephen Crawford, Noosa Village Surgery, Gibson Road, NOOSA QLD 4565  
PH (07) 74741313*

I found the course 'enabling' in a way that previous study of hypnosis was not.

The group experienced so many things about hypnosis personally, creating excellent rapport and learning.

Dr. Muthukrishnan imparts a very exciting philosophy of life and is an excellent facilitator.

*Dr. Lesley Sutcliffe, 407-409 Swanston St., MELBOURNE VIC 3000  
PH (03) 639 1451*

The course was like an awakening for me, personally and professionally. I enjoyed every moment of it and have absolutely no doubt that all my dreams will become reality. It is the best investment I have made in my life.

*Dr. Doreen Jayamaha, 34 Belgrave Road, EAST MALVERN VIC 3145  
(03) 852 0055*

Firstly, I would like to congratulate you on your superb presentation of hypnosis over the two weekends. It was so simple and easy to understand and certainly can be applied in my clinical practice. As you know I did not know anything about hypnosis, but at the end of your course, I have been enriched not only in your course of hypnosis but I also understand my personal life better. I feel supercharged at the moment and sincerely hope to apply all the skills of hypnosis taught by you in my clinical practice, which from now on is going to give me tremendous pleasure and joy to work with.

Muthu, there are not enough words to describe the transformation your course has done for me, but, I wish that every medical practitioner had this tool of hypnosis at their disposal and then world then would be a much nicer place to live.

Thanks, thanks, thanks.

*Dr. Raman Khoosal, 690 Sydney Road, BRUNSWICK VIC 3056  
PH (03) 890 9392*

Thanks Dr. Muthukrishnan, you are a true gentleman who has unselfishly shared your vast experience with us to the benefit of my patients and importantly to my future and present well-being.

*Dr. Nathan Francis, P.O. Box 345, WILLETTON WA 6155  
PH (018) 949475*

Excellent! Dr. Muthukrishnan is one out of the box. It is rare to meet somebody who is knowledgeable, experienced and willing to share his skills. I would recommend the course to any doctor.

*Dr. S. Srinivasan, 104 Monash Street, SUNSHINE VIC 3020  
Ph (03) 336 7342*

An excellent course. How can I give you any suggestions when you have put your 100% into it?

The best investment that I have ever made.

When I passed out of medical school after a strenuous five year course I felt inadequate. After some years in general practice my confidence had grown but I was still frustrated with my inadequacy in dealing with many problems.

After this four day course I feel totally equipped and confident to handle any situation, be it in my surgery or more importantly in my own personal life. Many thanks for this excellent course.

*Dr. Vevil de Kauwe, 359 Beechboro Road, MORLEY WA 6062  
PH (09) 377 3132*

I have been practicing medicine since 1950. Hypnosis, self hypnosis with meditation will help me and those under my care.

*Dr. Joseph Nathan, 141A Derby Street, SHENTON PARK WA 6008  
PH (09) 382 2652*

\*An excellent, well presented course in clinical hypnosis and mind-body medicine. Opening up options for practice unknown to me previously.

*Dr. David Morgan, 11/14 Walsh Place, CURTIN ACT 2605  
PH (02) 6267 6688*

Dr. Muthukrishnan is a dedicated and gifted teacher. He effortlessly teaches you to weave your 'life' with thoughts, knead it with consciousness and sublimely soak it in your 'subconscious'. In the process he teaches you to heal yourself, and use the same tool to heal those who seek your professional help.

As and anaesthetist, I attended the course with an open mind. Both, at a personal and professional level, the benefits were immense. I thank him with gratitude.

*Dr. R. Gopalkrishnan, 2 Pelican Court. CHURCHLANDS WA 6018  
PH (09) 387 6851*

\*Mind blowing, excellent content, superb speaker, many thanks.

*Dr. Stephen Leow, Angle Vale Shops, Shop 5 Heaslit Road,  
ANGLE VALE SA 5117  
PH (0412) 824295 (mobile) PH (08) 3328749 (home)  
PH (08) 2847777/2555551*

\*Best course I have ever attended. Empowers you to believe in yourself and to give a life plan that you cannot wait to implement.

My practice and my attitude to my practice have been improved enormously.

*Dr. Mark Hislop, Suite 10 Chapman Centre, Perry Drive, CHAPMAN ACT 2611  
PH (02) 6288 8139*

\*Having attended course, seminars, workshops and lectures by other practitioners Dr. Muthukrishnan's course was not only profoundly effective on my personal level but gave me a clearer picture of application of 'this tool' in my clinical practice with fail proof techniques. I found Dr. Muthukrishnan as a sharp, articulate, quick thinker with sense of great humour and most of all, kind, considerate and generous person with great wisdom.

I would recommend this course strongly to any clinician who had no training or experience in hypnosis to achieve crystal clear modalities to fulfill their own as well as others lives.

*Dr. Suresh Rananavare, 24 Burringbar Street, MULLUMBIMBY NSW 2482  
PH (02) 6684 2081*

\*It is sound, practical and ambitious. Already I found a real breakthrough in my awareness, clinical skills, and personal potential after the course was over.

The metaphysical understanding imparted will be a valuable basis for the future.

*Dr. Carl Cilento, 633 Stanley Street, WOOLLOONGABBA QLD 4102  
PH (07) 391 1906*

# Intensive Course in Clinical Hypnosis for General Practitioners

## Course content – an over view

(Mind body medicine with meditation, NLP, CBT and Quantum concepts)

**The course is given in six modules spread over four days. The Programme** - A four day concise, but comprehensive, practical, hands on, experiential course in clinical hypnosis, aimed at clearing myths and misconceptions of hypnosis, offering scientific basis and evidence of its therapeutic efficacy with focus on precise hypnotic skills, tailor made to suit busy General Practitioners with a view to make patient care more holistic.

This course which has been successfully given to general practitioners since the beginning of the CME programme which has been accredited as five points per hour activity over the last few triennium is now offered in a very much improved and new format in six modules.

As modern hypnosis has evolved as a very powerful therapeutic tool easily applicable in almost every facet of medicine. We offer this elegant treatment modality in a user-friendly and hands on seminar so that general practitioners can apply the skills both in family practice and psychological medicine. In the context of increasing mental health issues and the pressing demands on conventional family practice, seminar participants will acquire skills in these areas effortlessly in an interactive way in these four days.

In this course, we combine many mind power modalities I e meditation, CBT, counseling, NLP, quantum concepts and traditional psychotherapy in a clinically useful way using hypnosis as the operative system. **And that's what makes this course unique. Using hypnosis as operating system is a cutting-edge technology in producing cost-effective and predictable clinical results in an unimaginably large variety of cases and in a much shorter timeframe.**

**SPEAKERS AND FACILITATORS** - Dr. R.S. Muthukrishnan is the main lecturer, and facilitator in this course and the whole course has been put together by him with the help of the committee.

**Dr. R.S. Muthukrishnan** is a G.P. with an M.B., B.S. degree from Madras University, in family practice for the last thirty three years, in referral hypnotherapy practice the last twenty years: He is a full member of the **Australian Society of Hypnosis and the International Society of Hypnosis**, and the director of **Awareness School of Clinical Hypnosis**. He lectures and has been teaching this course for GPs since the beginning of the CPD programme successfully and is now published a book on mind power and mind body medicine (*Software For Your Soul*). In addition to teaching hypnotherapy to doctors, he also conducts seminars for students for super performance, gives **free healing sessions for cancer patients and their carers**, and trains athletes, dancers and musicians and CEOs for peak performance

**Dr. Saroja Srinivasan**, is a clinical Psychologist with wide clinical and teaching experience. She will be giving a few lectures on psychosomatic diseases, the mind body connection, Psychoneuroimmunology, meditation and other trance states, and their use in health and healing. When the course is done interstate or in country towns, if Dr. Srinivasan is not available, Dr. Muthukrishnan will do these extra lectures as well.

Other General Practitioners (previous participants) bring their cases and present them, where possible.

The Course is given in six modules of six hour each in four days -- Thursday to Sunday inclusive.

With group 1 CPD points of **240 (40x6=240) (Approved by RACGP)**

Module one: *Hypnosis, the science and art of mind body healing*

Module two: *Hypnosis in your consulting rooms*  
(In two parts between day one and two)

Module three: *Ericksonian hypnosis/ CBT/ counseling/ psychotherapy*

Module four: *Hypnosis / meditation / NLP / quantum physics*

Module five: *Hypnosis and focused psychological Strategies*  
(In two parts between days three and four)

Module six: *Stress and life management strategies for GPs*

\*\*\*\*\*

### *Synopses of modules*

Module one: *Hypnosis, the science and art of mind body healing*

(Clinical hypnosis from Mesmer to Milton Erickson --  
The techniques -- induction, deepening, programming and utilization of trance --  
The phenomena, facts and fallacies  
And therapeutic applications in modern medicine)

Module two: *Hypnosis in your consulting rooms*  
(In two parts between day one and two)

(Integrating the magic of hypnosis in everyday general practice,  
In medicine, surgery, obstetrics, family therapy, personal transformation,  
Personality disorders, dysfunctional relationships, habit control,  
Gambling, smoking etc, modulating psychoneuroimmunology with hypnosis  
In the process of healing from common cold to cancer. Principle and practice of advanced  
mind body healing)

Module three: *Ericksonian hypnosis/CBT/counseling/psychotherapy*

(Indirect and permissive hypnosis, modified CBT, counseling and psychotherapy under  
hypnosis -Dr Muthukrishnan's own version of CBT -- the basic structure of thought, feelings  
and action-- controlling thoughts with volition. Ego, self-image and personality and how to  
reconstruct them with hypno therapeutic techniques. This is a powerful combination of many  
modalities producing dramatic behavioral changes in patients.

Module four: [Hypnosis / meditation / CBT, /NLP / quantum physics](#)

*(The healing power of trance states and consciousness control -- integrating the power of thought (CBT), the power words(NLP) the power of trance (Meditation) the power of mind(Quantum physics) and the power of automatic and programmable action(Hypnosis) -- facts and fallacies about these modalities and other tools like progenyssive muscular relaxation,*

*Deep breathing and visualization, -- and putting them all together in scientific perspective to produce a user-friendly clinical skills and Dramatic therapeutic outcomes*

Module five: [Hypnosis and focused psychological strategies](#)

(Healing the mind with the mind: dealing with psychological issues -

- The mental "health "patient with anxiety and depression, panic and phobic states, Alcoholism and substance abuse, insomnia, nocturnal enuresis, Sexual and marital disorders, anger and grief management, obesity and other Eating disorders and a host of other psychosomatic diseases -- Integrating counseling, psychotherapy, CBT with hypnosis in the management of mental health issues. (With optional assessment and outcome tools I.e. K10 etc For adjudication for mental health CPD by GPMHSC)

Module six: [Stress and life management strategies for GPs](#)

**(Stress and life management strategies for GPs (and their patients) with hypnosis CBT and meditation.**

A self discovery, self mastery and personal transformation module giving experiential knowledge and skill in meditation, self hypnosis and NLP. This kind of programmed is not within the easy reach of busy general practitioners. It offers the much needed but least sought after help to medical practitioners very discreetly and in a personal and optional basis during this course.

The definition of stress -- interpretation of the events of life -- proactive and reactive behavior -- Self referring or object referring attributional styles -- subjective and objective communications -- Associative and dissociated memories -- CBT under Hypnosis affirmation visualization, anchoring - meditation and hypnosis  
As final pathway to permanent tranquility and peace

The origin and course of stress (real tigers, imaginary tigers, human tigers, paper tigers -- primitive stress management with muscle and adrenaline power versus modern stress management with cognitive power and consciousness -- the power of interpretation and self referral -- freedom from the primitive fight or flight behavioral bondage, managing life by transcending or rather than fighting or fleeing -- the achievable, everyday enlightenment for everybody.

\*\*\*\*\*

---

**At the end of the course you will be able to effectively deal with the following clinical and social problems, for yourself as well as your patients:**

- 1. HABIT CONTROL -** Smoking, drug dependence, Alcoholism, nail biting, bed wetting, gambling, stuttering, Temper tantrums, etc.
- 2. PAIN RELIEF -** Obstetric, general dental Anesthesia, chronic pain, Migraine, dysmenorrheal, Arthritis, pain of cancer.
- 3. RELAXATION & STRESS MANAGEMENT -** Anger, resentment, stress insomnia, tics, aggression anxiety, fears and phobias Executive and professional burn out.
- 4. PERFORMANCE ENHANCEMENT -**  
**For students:**  
Accelerated learning, Excellence in studies, Exam anxiety.  
**For athletes:**  
Sports excellence  
**For artists and writers:**  
Enhancing creativity, Public speaking, Stage fright  
**For dancers and musicians:**  
For peak performance enhancement.
- 5. CORPORATE HYPNOSIS -** For companies, sports clubs, etc. for performance enhancement / enhanced productivity and increased work ethics.
- 6. PERSONAL TRANSFORMATION -** Obesity, anorexia nervosa, bulimia, lifestyle changes, relationship, problems, parenting coping with life tragedies. Lack of energy or initiative. Self image, confidence, enthusiasm and motivation. Self improvement in many areas.
- 7. PHOBIC ANXIETY STATES -** Agoraphobia, claustrophobia Hyperventilation syndrome, fear of flying, driving, panic attacks, compulsive disorders, chronic/ reactive depression, bereavement.
- 8. SEXUAL/MARITAL PROBLEMS -** Dyspareunia, frigidity, lack of orgasm, lack of libido, vaginismus, impotence, premature ejaculation, marital disharmony of any kind. Dysfunctional families, divorce, marriage break-up, etc. Children's behavior problems.

- |  |  |
|--|--|
| <b>9. OTHER MEDICAL CONDITIONS -</b>   | Trigonitis, eczema/allergies, psoriasis, nausea vomiting due to pregnancy, chemotherapy or motion sickness, dysmenorrheal, hysterical paralysis, hyperacidity, peptic ulcer, irritable bowel syndrome, migraine, chronic back pain, chronic fatigue syndrome, Postnatal depression, PMT, Menopausal syndrome hypertension, asthma, herpes, Crohn's disease and Ulcerative colitis. |
| <b>10. OTHER NEW APPLICATIONS -</b>    | Post traumatic stress. Disorder, ADHD victims of sexual abuse, school phobia and other behavior problems in children.  |
| <b>11. HEALING -</b>                   | Malignancy, MS, AIDS, Autoimmune diseases, etc.  |
| <b>12. SELF HYPNOSIS -</b>             | For personal. Transformation, Business, personal, professional and family well being. Behavior modification, enhanced awareness, creativity and enlightenment.   |
| <b>13. SURGICAL -</b>                  | Pre operative relaxation and programming. Post operative accelerated healing.  |
| <b>14. MIND/BODY/LIFE CONNECTION -</b> | Creating one's Future, choosing one's destiny: Quantum Reality and its day to day applications.  |

And many more medical, social and psychological problems can be managed with hypnotherapy effectively. When in doubt, a preliminary assessment will help determine the suitability.

## **CONGRATULATIONS.. and welcome.....**

**Hi,**

**I personally welcome you to join me in the seminar. I am a busy general practitioner. Myself and I will show you how you can incorporate this beautiful and refreshingly pleasant modality of treatment into mainstream medicine. Over the years, hypnosis has professionally and personally enriched my life and the lives of many of my colleagues, seminar participants and thousands of patients. Please come along - you will feel the life changing impact even after the first half an hour of the course.....**

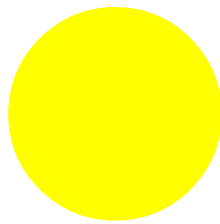

I can assure you this course will enhance your clinical skills in a new and fascinating area of mind-body connection in the cause and cure of diseases.

**'The real doctor is the doctor within'** said Dr. Albert Schweitzer: You will meet this real doctor at work in this course.

Looking forward to seeing you in the seminar  
Regards

**Muthu**

**(Dr.R.S.Muthukrishnan)**

**`If you think you can -  
you are right'  
`If you think you can't -  
you are right too'**
